TARPON

SPEARFISHING GEAR

HOW TARPON WAS BORN

Tarpon was born in 2014 by the hand of **António Pires** and **João Cruz**, two spearfishing enthusiasts.

We found the need to create a new spearfishing equipment brand that could provide products of the highest quality, made for spearfishers by spearfishers. Our main goal was to produce innovative and specialized spearfishing material at a fair price.

With several years of research and pursuance of the best materials and manufacturers, the Tarpon portfolio delivers quality and innovation.

A high performance equipment with details developed through many days in the water.

Enjoy our gear in your next dive!

CONFIGURABLE OPTIONS	TUBE MATERIAL
	 OR  Carbon OR Aluminium

Argentum

Product developed in partnership with C4, the world's leader in carbon blades. Tarpon Argentum represents the best in carbon fins production, using the Carbon HT Alu 15T produced in Japan by Mitsubishi.

Its extreme torsion enables an incredible performance with very low energy consumption. They are assembled with the most advanced footpockets in the market, the C4 300 2.0 Easy Fit*.

CARBON TYPE	Mitsubishi Alu 15T
HARDNESS	Soft / Medium / Hard
FOOT + BLADE WEIGHT	300gr

Footpockets available from sizes 37 - 47 EU

*Also available with the 400's pockets.

TARPON X

Joint production with Meister in Greece, the Tarpon X is the result of many testing to achieve a perfectly balanced blade. The X shape construction makes them smooth yet powerful, channelling the water in the lateral blade rails.

An all-road fin that can perform in every sea condition, ideal for dives from 0 to 25 meters.

CARBON TYPE	HT ALU 15T
HARDNESS	Soft / Medium / Hard
FOOT + BLADE WEIGHT	350gr

Footpockets available from sizes 37 - 47 EU

KELP

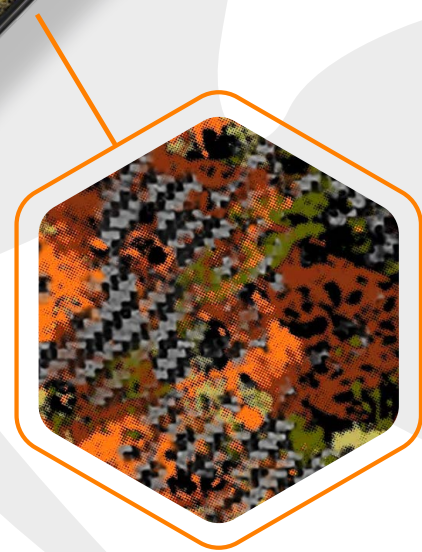

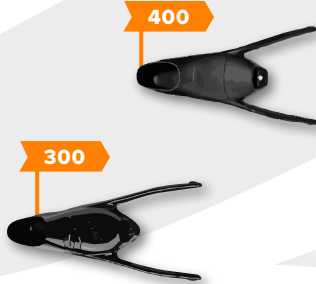

Product developed in partnership with C4, world leader in the production of carbon blades. They represent the best that is currently produced using the latest technology like Overmoulding protection system(OPS) a rubber protection, ideal for our Atlantic waters. An all terrain fin, efficient in rough and hard sea conditions.

Its external twist and recovery levels allow for incredible performance with a low consumption of muscle energy. They come equipped with the most advanced footpockets on the market, the C400 from C4.

CARBON TYPE	Mitsubishi Alu 15T
HARDNESS	Soft / Medium / Hard
FOOT + BLADE WEIGHT	300gr

*Ideal for diving between:
0 and -25 meters*

Footpockets available from sizes 37 - 47 EU

*Cammo & Carbon
combined design pattern*
